43" Outdoor Smart Display

IP65 weatherproof

14 Hour Running Time

Android Media Player

Network Upgrade

1200 Nits Brightnes

Tempered Glass Front

Locking Bar

Ultra-violet Ray Resistant

Free Scheduling Software

Plug and Play

Fully Portable

Foldable design, special use casters, flexible operation save time and effort.

Secure Locking Bar

Advanced locking mechanism for simpler operation, ensuring the stability and safety of the display

More Distinctive Features

IP65 Rated Weatherproof Enclosure

The outer casing has an IP65 rating which means it keeps out all airborne swarf, dust and other particles as well as being protected from any wet weather conditions; broadening the range of possible environments.

Super long running time

The integrated lithium-polymer battery revolutionises the way you can use digital signage. This commercial grade slimline battery solution gives you over 14 hours running time.

1200cd/m² IPS Panel

The high brightness LCD panel used in this display is up three times brighter than a domestic TV making it ideal for outdoor spaces.

Plug and Play

Plug and Play is the most straightforward way to upload content to the screen. Simply load images and videos on a USB stick, insert in the display, wait for your content to copy over and then remove. Your images and videos will now play in a continuous loop.

Charge level indicator

This handy indication meter tells you exactly how much charge you have left in your battery for ultimate convenience.

Stylish Robust Enclosure

Aluminum alloy frame, high-strength metal housing, front tempered glass panel, provide a solid backing and guarantee for diaplay operation environment and service life.
