Intelligent charge

Waterproof and
Dustproof

Anti-Rust and
Anti-corrosion

Anti-thunder

High Definition Screen

Outdoor LCD display screen, play pictures, animation, video and other colorful massive content.

Size: 55 Inch

Resolution ratio: 1920*1080

Response time: 6ms

luminance: 2000-3500cd/m²

Diversified AD Display

built-in temperature probe sensor sensing equipment, Industrial grade cold air cooler is adopted.

Industrial Protection Technology

The integrated chassis and constant temperature system meet the IP55 full outdoor equipment standard.

Intelligent Air Cooling System

built-in temperature probe sensor sensing equipment, Industrial grade cold air cooler is adopted.

- Adopt the intelligent air cooling system for heat dissipation
- Intelligent control of wind speed, energy saving
- fan monitoring indicator, monitors the whole process during operation

Optional Peripherals

Support custom installation of external equipment, internal equipment, model style customization, etc.

Charging Plug

Various types of electric vehicles can be charged according to different voltage levels.

- Dual charging plug
- Rated operating current: 10A / 16A / 32A / 63A
- Operating Voltage: 250V / 440V
- Excellent protection performance, protection level of IP55
